All members of W. R. C. are requested to meet at their Hall on the fourth Saturday in September. Business of importance.

Officer William Rosser, who accidentally shot himself several days ago, is getting along all right and will be able to attend to his duties in a few days.

At a meeting of the Session of the Central Presbyterian Church it was decided to change the hour of the night service from 7:30 to 7 o'clock. This will necessitate the changing of the hour of Y. P. S. C. E. from 6:30 to 6 p.m. Let all members of the Church note the change, especially the young people.

The McKinley, Hobart and Pugh Club of the Fifth and Sixth Wards had an interesting meeting last night, with Vice-President John E. Wells in the Chair. The membership is now 375 and the Club is laying yet. The members will be out in full force at Saturday night's meeting at the Courthouse.

Jesse McDaniel, one of Huntington Township's most prominent farmers, died Monday morning at his home near Ellsbury, O. He had been failing in health for the past four years with a complication of diseases, the main one being Bright's disease. He was 53 years of age and one of the best known farmers in that community. The remains were interred at Ellett's Chapel Cemetery Wednesday.

The residence of Mr. Darius Moran, on Jersey Ridge, was destroyed by fire yesterday afternoon about 8 o'clock, together with several small outbuildings. The contents of the house were saved. The loss will be a couple of thousand dollars, on which there is, unfortunately, no insurance. Mr. Moran is one of our best citizens, and he will have the sympathy of every one in his misfortune.

A BAD ACCIDENT.

Mr. John Toile Severed An Artery in One of His Legs.

Mr. John Toile, a cigar maker, met with an accident yesterday morning that may prove fatal.

He was whittling, when the knife slipped, cutting a severe gash in the fleshy part of the leg just above the knee, severing the main artery.

He arose and walked into the adjoining room with his hand holding the wound, and when he let go the blood rushed out in a stream, and before the physicians could be summoned he had become so weak from the loss of the life fluid that it was almost impossible to haul him.

Dr. C. C. Owens was summoned, who stopped the flow of blood and took the young man to his home on Fourth street.

It is a dangerous wound, and the fears are that blood poison will set in, which would necessitate amputation, and it is thought that Mr. Toile has lost too much blood to stand such an operation.

He has a wife and two children.

The Aberdeen Public Schools began Monday with 137 pupils enrolled. The Colored School of the same place had an enrollment of 15 pupils.

Mr. W. B. Furnier has been awarded the contract for putting in a new wall at the corner of Second and Ferry streets, Aberdeen. He commenced work the first of the week.

A number of mercantile houses in Louisville and Cincinnati have given notice that if free silver carries it will be necessary for them to reduce the price of their traveling men.

Mrs. J. M. Myall of Lawrenceburg died recently at that place. Her husband formerly resided at Magaliah, and is a cousin of Mr. Milton Johnson and a nephew of Mr. E. Myall of this city.

Mr. David G. Cheesman, formerly of Aberdeen, who has been stationed at San Carlos, Ariz., for the past four years, has been transferred to Washington, D. C., where he has a good position in the Treasury Department.

Enterprising citizens are making preparations to feed the crowd that is expected next Tuesday. It will be well to hear in mind that every one who runs a restaurant or luncheon must first procure a city license. The cost for the remainder of the year will be about \$8.50.

Cards have been received in this city announcing the approaching marriage September 16th of Miss Nellie A. Gausin of Bedford, Ind., to Mr. Porte B. Lund.

Miss Gausin visited Miss Claire of the West End the past summer, and made many warm friends during her stay.

The Sheriffs of the state are required by law to report the funds in their hands at the end of each month from September 1st to December 30th, when they are compelled to make a final settlement with the Auditor. Not half of the Sheriffs of the 119 counties have complied with this statute.

The local Democracy there will all torn up over the fact that Bryan will not appear in Covington, although he appears at Mayville and Lexington, two places which in the eyes of the localities are far inferior in point of population and accommodations. Who will not Covington? She is Cincinnati's back yard.

At the second day's session of the Kentucky M. E. Conference at Vancueburg the report of Dr. C. H. Payne, Secretary of the Board of Education, was presented. Dr. J. D. Walsh, Presiding Elder of the Lexington District, made his report, as did Elder J. D. Miller of the Middleborough District. Charges have been preferred against Rev. S. K. Ramsey of the Booneville District, and a committee is investigating.

On the Big Four train between Columbus and Cleveland September 7th a poll was taken to see how the passengers stood on the approaching election. Two hundred and fifteen were for McKinley, 11 for Bryan and there were none for Parker.

When Mr. Bryan made his Cleveland speech, a special excursion was run from Canton, McKinley's home, to Cleveland,

and it might have been supposed that a majority of the excursionists were abolitionists, but a poll of the 700 men on board showed how many were attracted merely out of curiosity. The McKinley following even on this special outnumbered the Bryan men three to one.

BRADLEY ABROAD.

KENTUCKY'S ELOQUENT SON TO SPEAK ELSEWHERE.

As THE LEDGER stated a few days since, Governor Bradley is in greater demand than almost any other public speaker now before the country.

The pressure upon the National Committee became so urgent that Chairman Hanna agreed, if Governor Bradley would devote a month in other states, that Kentucky should have choice of the best speakers at the command of the National Committee.

Yielding to the solicitations of the Committee and to his friends, the Governor has accepted the call made upon him, and in a letter to a gentleman in this city he says will leave Saturday night to begin his canvas in Missouri.

"Well, by thunder," he said, "I'm going to get rid of them."

"He got some powder, I don't know how much, but something less than a ton, and spread it round in the tent and led a train outside. Then when we'd get everything out of the way he fired the train."

"You've seen the steam come out of the smokestack of a locomotive when the engine was exhausting, a quick puff straight up and then the cloud of expanding steam. Well, that puff of powder went up out of the opening in the top of our tent something like that, only there was ten times as much of it and it broadened out into a great white cloud; and up through the center of this cloud; below it and through it, and above it, the size of the opening in the tent, was what seemed to be a solid column of fire; if I hadn't seen it since I should think all the flies in the world must have been blown up in that explosion."

WE'RE FOR AMERICA & AMERICANS!

"I believe that it is a good deal better to open up the Mills of the United States to the Labor of America than to open up the Mills of the United States to the silver of the world!"—WILLIAM MCKINLEY.

COUNCIL COMMITTEE.

The members of the Republican County Committee are requested to meet at the Cooper Building, Front street, to this city, on Tuesday, September 15th, at 10:30 o'clock a.m. for the transaction of important business.

CLARENCE MATTHEWS, Chairman.

S. T. HICKMAN, Secretary.

We are not a Nation of classes, but of sturdy, free, independent and honorable people, despising the demagogue and never capitulating to dishonor.—WILLIAM MCKINLEY.

MR. BRYAN winds up his letter of acceptance with the silly demand for the "gold and silver standard of the Constitution!" Will the distinguished gentleman please point to that provision of the Constitution which decrees either a gold or a silver standard for the money of this country?

THERE are yet some people who profess to believe that the coinage of the silver dollar was discontinued in 1873

by "ways that were dark and artful."

"The Crime of '73."

The facts are that the bill was care-

fully discussed and considered during three years, the debate in the Senate occupying sixty-six columns and those in the House occupying seventy-eight columns of The Congressional Globe, the bill itself being printed in full no less than thirteen times.

Every feature of the bill was thoroughly explained in the elaborate report submitted with the measure and repeated afterward in the debates on the bill itself.

The report accompanying that bill said among other things: "The coinage of the silver dollar piece, the history of which is here given, is discontinued in the proposed bill. * * * The present gold-dollar piece is made the dollar unit in the proposed bill, and the silver-dollar piece is discontinued." And the bill specifically pointed out in three other places. At the head of this original report was a paragraph in large letters enumerating "the new features of the bill." Twelve amendments are specified, one of which is distinctly stated to be "Discontinuing the coinage of the silver dollar."

The truth is there were no silver dollars in use in the country at that time. We did not, in fact, have silver till it was "depreciated"—till the gold standard was adopted. The total number of silver dollars coined from 1792 to 1873

while the number of gold

BRYAN'S CHANGE OF BASE

What His Own Newspaper Said In 1893. If True Then, Why Not True Now?

Omaha World-Herald, August 3d, 1893.

The silver agitators who insist on free coinage upon The Dishonest Ratio of 1 to 16 and refuse to accept it upon the honest ratio of 1 to 25 are very anxious to delude the public into the belief that the demand for more currency and the demand for coinage upon the ratio of 1 to 16 are identical.

They brand as goldbugs all who decline to advocate 54-cent silver dollars.

In truth, however, the only honest bimetallist is he who believes in the free coinage of gold and silver, each taken at its market value and so coined that 100 cents worth of gold shall be in the gold dollar and 100 Cents Worth of Silver Shall be in the Silver Dollar.

The bimetallist who advocates free coinage of gold and silver on a ratio of 1 to 25 is as much a believer in an increase in the circulation medium as the man who demands coinage on the ratio of 16 to 1.

The silverites in Chicago need not arrogate to themselves the championship of an increased currency. That is not their real purpose, nor is it the real effect of their agitation. They are only the champions of silver.

Mr. BRYAN winds up his letter of acceptance with the silly demand for the "gold and silver standard of the Constitution!" Will the distinguished gentleman please point to that provision of the Constitution which decrees either a gold or a silver standard for the money of this country?

1873, containing $\frac{1}{2}$ grains more silver than the old dollar, was \$35,965,924, and the number of so-called standard silver dollars coined under the Bland-Allison Act of 1878 was \$40,700,041, or fifty-four times the number issued before 1873.

SHORTER SILVER CATECHISM.

SOME FIGURES AND FACTS THAT WILL BEAR STUDY.

New York World, (Democrat).

Question—The average market price of silver for the last reported year of production was 64 cents per ounce. What was the silver in a dollar actually worth?

Answer—It 100 ounces, costing \$64, were coined into \$129, then each dollar was worth 49 cents—call it 50 cents.

Q.—Suppose we had been on a free silver basis, how would that have increased the cost of all imported commodities?

A.—It would have doubled the cost of gold.

Q.—What were our chief imports last year that would affect the people generally?

A.—Let us put it in a table:

Cost	People would pay
In Gold.	In Silver.
Articles... \$ 6,120,117	Free \$ 19,291,431
Gold... 77,706,727	\$ 10,590,342

Total... \$441,445,000	\$72,316,068

Q.—This is a heavy burden for the wage slaves to carry, if their wages and wages are not to be raised?

A.—But it is as nothing to the burden they must carry in regard to domestic products, which will be sold abroad for gold prices in silver.

Q.—Can you give an idea of this last?

A.—In 1894 the export gold value of

sumed in the United States was \$844,935,000, and 92 per cent. of this was consumed by the wage earner and those dependent on him. On a silver basis it would cost him just double or it would go abroad. This alone would take \$70 yearly out of each family's present earnings—the average increased cost for bread and meat. Whether the corn was used in Johnny-cake or fed to the hogs the increased cost would have to be paid.

If the increased price of the hogs was not paid they would be salved, exported and sold at a gold price covering increased cost of corn in silver.

Q.—Then the premium on gold would be added to the tariff taxes in enhancing the cost of imported necessities?

A.—Exactly—more than doubling them.

BILL BRADLEY'S WAY.

PAYS THE SALARY OF THE ACTING GOVERNOR.

When Governor Bradley returned from Ohio on Tuesday he gave acting Governor Worthington his personal check in payment of his salary while occupying the Executive chair during his absence.

The Governor thinks that when he is away he should pay the state's business the state should pay the man who takes his place, but when he is away on his own business he believes he should pay his substitute.

Tomorrow he will leave for a two weeks' speaking tour through Illinois, Indiana, Ohio, Missouri and such other places as the Campaign Committee may send him, and during that period he will again pay the acting Governor's salary out of his own pocket.

A Talk Heard at a Country Store Down South.

The Merchant and Farmer Can't See How Free Silver Would Help Them—They Want Home Manufactories, and Will Vote for Them.

(Written for our Campaign Supplement.)

Merchant—Well, neighbor, how are you pleased with our democratic platform, and our prospects of success this fall?

Farmer—I don't know what to think. I never was so much at sea on the question as to loyalty as I am now in my life. I have always been a democrat, and for 22 years that I have been a voter, I was never before at a loss to know what to do and how to vote.

Merchant—Just my fix. Have you heard of the patriotic utterances of Hon. Elihu B. Root, who is secretary of the United States navy under our democratic president?

Farmer—I have heard that he said something of interest to us southerners, but I haven't read it. Have you?

Merchant—Yes. Here is what he says to the national file of the democratic party, and I don't know why it won't be good doctrine for your popular neighbors; he says:

"No political issue is involved in the coming election. The question to be decided is whether we will have the prosperity of republican institutions threatened. Every vital crisis since the Civil War has been due to the influence of the gold standard, which controlled the Chicago convention—forces of lawlessness—which are inconsistent with the maintenance of the republic."

"Henceforth there can be no peace in the country until we get rid of the gold standard, and we will have to do this by getting a single standard of silver and unlimited coinage than we will get if we exchange for that dollar. If the silverites win, the hard times that the country has seen during the last five years will be continued, and we will have to pay the price of that again."

Farmer—That is said like a man and a patriot. It has the ring of a true American, and I like it.

Merchant—Yes, it has; and if a man holds to the principles of the democratic party that he does, and educated on all the political questions of the day, advises us to drop our democratic prejudices for this election, and vote against Bryan and Sewall, I think we can do it without hurting our democracy, and only by doing so, to save Bryan and to secure for us to come to the White House.

Farmer—That is good advice. I will follow it. But I had about made up my mind to support and vote for McKinley, as a good many of our townspersons have, who never voted for a republican. I never thought much of the populists or up-to-date, and used to think that the silverites were the only ones to vote for McKinley and Root.
